## Year 1906

GRAPE, from First North to Currant, bet East Temple and Apple.  
[Marmalade District]

## Year 1907

*In 1908, Grape was renamed Almond*

*Solr = Solicitor*

## Year 1908

*Salt Lake Clock Co.*

## *Marmalade District of Salt Lake City*

*The Marmalade Neighborhood is located on the western slope of the hill (200 West to Victory Road/Columbus Street and between 300 North-800 North.) This is one of the oldest neighborhoods in the State of Utah and is included within the Capitol Hill Historic District. The majority of homes in the Marmalade Neighborhood were constructed prior to 1930 and many were constructed prior to 1900. The neighborhood is characterized by steep narrow streets, irregular shaped lots with a variety of architectural structures which are oriented to the lot rather than the street.*

*Preservation efforts began in the Marmalade Neighborhood as early as 1975, when the Utah Heritage Foundation moved its headquarters to Quince Street in the*

*Marmalade Neighborhood and began promoting this area for historic preservation. In 1982, the Capitol Hill Historic District, made up of the Marmalade and Kimball neighborhoods, was listed on the National Register of Historic Places. The Salt Lake City Council designated the local historic district in 1984. The local historic district utilizes regulations to promote preservation and protect investments of property owners, by providing design review of new construction and alteration which helps ensure compatible redevelopment of properties in the district. Listing on the National Register entitles property owners to apply for state and federal tax credits as an incentive for preservation efforts.*

*Although most of the original historic structures are intact, many historic qualities of the neighborhood have been lost. Original street names, such as Peach, Apple, Grape and Currant, which gave rise to the area being called "Marmalade", have been changed. In addition, there are no identification markers to signify when a person is entering into the historic district.*

## Salt Lake City transportation in the 1930's

John & Halie Wood both worked for the city bus/trains.

*A bit of history:* In 1928 Salt Lake City became the first city to use trackless trolleys on major transit routes.

Edward A. West, General Manager of the Utah Light & Traction Company, examined with much interest a Fageol Twin Coach 40-passenger bus at the American Electric Railway Association convention in Cleveland in October, 1927. He had to decide whether to rebuild deteriorating track and streetcars or to replace them--but with what?

The coach he was looking at had deep leather seats, pneumatic tires, an attractive and modern body design, and gas-electric propulsion. In this type of system, a gasoline engine drove a generator which provided power to electric motors driving the wheels. It was said to give smoother acceleration and less driver fatigue, although it was heavier than a conventional transmission and used more fuel.

MST & TCo = Mountain  
States Telephone  
& Telegraph company

## MST&T Marks Net Gain Of 10,732 Phones in '50

A record number of telephones — 52,540 — was installed in Utah during 1950, Franklin D. Sawyer, Utah manager, Mountain States Telephone and Telegraph Co., reported Saturday.

Yet despite the record number of installations, the company showed a net gain of only 10,732 telephones during the year, he said, since 41,808 telephones were removed.

*Mountain States Telephone and Telegraph Building SLC UT, November 2, 1917. The "service flag" and sign promoting war bonds were symbols of support for American armed forces during the "Great War." Some of the decorative stone panels were salvaged when the building was razed; they stood for many years at this site of the west side of State Street between South Temple and 100 South*

*Many of our ancestors (uncles, great uncles, parents and grandparents) worked for Greyhound*

**TOPS IN PAY LOAD !**

If you use gasoline-powered tractors in the 4,000 GVW class, here's big news. This new GMC Series 470 will haul more pay load than any other vehicle of its rating with comparable standard equipment—up to more than a full ton above most!

That's because GMC has found new ways to take dead weight out of truck design by self-storing equipment. One example is GMC's revolutionary new "SD" (short deck) engine that delivers 185 hp at 2,000 r.p.m. It weighs less than other engines of equal power by as much as 300 lbs. But it's the highest-compression gasoline truck engine ever built—gives you extra mileage from regular fuel!

Come in, compare them—in person or by mail—in rugged long-life construction—against all the rest!

Then check the price and fuel figures anywhere else put on this big pay load in a 2- to 4-ton truck.

**HERE'S YOUR PAY-OFF ON A GMC 470**

UP TO A FULL TON 2000 MIGHT MORE	UP TO A FULL TON 2000 PAY LOAD MORE

" Richd F missionary r950 California av

Richard F Wood, son of John G Wood & Blanche Greenhalgh;  
950 California Ave.; Served a mission to Argentina in 1951

*The Prophet, David O McKay*

*Starting in 1925, a Mission Home in Salt Lake City provided a central location where missionaries could gather and receive instruction.*

*Generally, a missionary would stay for several days, be set apart as a missionary by a General Authority, and participate in temple ordinances before leaving for his or her assigned region of service.*

*Historically, missionaries went directly to foreign-language areas with no language preparation. From the early 1950s, BYU president Ernest Wilkinson lobbied for a center that combined language training with the services of the Mission Home. In 1961, the Church began a pilot program for 24 Spanish-language-speaking missionaries in Provo. In 1963, the program was standardized, and the administration dedicated facilities of the new Language Training Mission, or LTM. Missionaries were able to use the BYU facilities and even attended sporting events.*
